

LEONARDO CARRIZO | DISPATCH

Can-do attitude | Designers Phil Stiles, from left, Stasia Czech and Jon Beier stack hundreds of cans of food to give life to their "frog and dra(can)fly" design during this year's Construction 2009 event at COSI. The event brings together local architects to build enormous structures out of canned or boxed food that later will be donated to Operation Feed. To view a time-lapse video, go to Dispatch.com/multimedia.
